

Scooter

The new designer chair for kids

Sooo comfortable!

Scooter grows perfectly to fit ergonomically

- Seat height, seat depth and seat back can be adjusted separately
- For body heights from approx. 109 to 200 cm
- Seat heights 28-52 cm
- Max. weight: 90 kg

Super strong and super comfortable

- Robust tubular steel frame
- Seat and back support made of fiber-glass reinforced plastic
- Six-point foot - stable and safe
- Breathable, high-tech netting cover – very comfortable, no pressure-points

Two design versions

1. Grey frame, silver netting
2. White frame, anthracite netting

Customizable with cozy cushions

- Available separately: Cushions in 10 cool colors, easy to fasten in place with press studs.
